

What is Buzzy®?

Buzzy® is an award-winning FDA-cleared medical device to CONTROL PAIN.

-  MOST PROVEN
-  FAST
-  EASY
-  REUSABLE
-  COST EFFECTIVE

How Does Buzzy® Work?

Using a combination of vibration and cold to desensitize nerves, Buzzy® controls pain on contact.

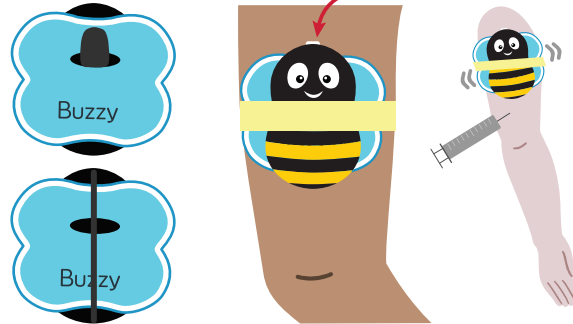

Reduce Pain Up To 88%

PROVEN in 60+ clinical trials.
IV access 45 minutes faster.
Saves ~\$13.00 per point of pain reduction.

Using Buzzy® Is Easy

Secure frozen wings on vibration unit. "Buzz the skin to sleep" for one minute. Do procedures with Buzzy® between brain & pain.

DistrACTION®

« COGNITIVE DISTRACTION TOOLS »

Search & find cards clinically proven to reduce pain!

- Snaps onto a name badge or key ring.
- Age-appropriate games & tasks on the back.
- One infant card per set.

Accessories available for sale on Shop.PainCareLabs.com

"I had no idea that she had even stuck me...This is a huge step in life for me."
- Matt S.

"My father was going to quit dialysis until we found Buzzy®. Dr. Baxter, you're a lifesaver!"
- Karen S.
